CPI INTERIORS ANNOUNCES NEW OWNERS

Long-standing team members to take the helm in a seamless transition

Ottawa, Ontario: CPI Interiors is pleased to announce that Catherine and Jerome Pulcine have successfully sold the business to two of their long-standing team members, Natalie Cox and Megan Patterson.

"As we embark on a new phase in our lives, we couldn't have asked for anyone better than Natalie and Megan to carry on the business. With their shared passion for design, dedication to the business, and commitment to clients, we know that CPI Interiors is in good hands," said Jerome Pulcine.

Catherine Pulcine will continue to serve her clients as a Senior Designer on the CPI Interiors team.

"We have every confidence that Natalie and Megan are the perfect choice to take over the business operations of CPI Interiors, and I look forward to devoting my time to my clients and the design process," said Catherine Pulcine.

Both award-winning designers, Cox and Patterson bring a wealth of experience, creativity, and passion to their new roles as owners. Patterson has been with the company since 2015 and served as the Director of Design for over 5 years. Cox joined CPI Interiors in 2014 and has been the top-ranked Decorator in Canada for over 8 years, receiving prestigious awards for her exceptional design skills. Their in-depth knowledge of CPI Interiors' operations ensures a seamless transition for the design team, operations staff, and clients.

"We are thrilled to take on this new responsibility and carry forward the exceptional service that CPI provides," said Patterson. "We are incredibly grateful to Jerome and Catherine for their mentorship and guidance over the years, and for the opportunity to lead CPI Interiors into the future."

"We have long admired the principles on which CPI Interiors was founded, and we are committed to upholding those values while striving for further growth and success," added Cox.

Jerome Pulcine will be actively involved in the transition process to support Natalie and Megan, ensuring a smooth handover.
